FOR IMMEDIATE RELEASE

Marion General Hospital Selects Streamline Health® for Integrated Document Workflow Solutions

Marion General Hospital Seeks Improved Operational Efficiencies for Health Information Management Using an Integrated Approach to Workflow

Cincinnati, Ohio July 15, 2008 — Streamline Health Solutions, Inc. (NASDAQ Capital Market: STRM) today announced that Marion General Hospital, located in Marion, Ohio, will implement Streamline Health's document management and workflow solutions integrated with its GE Centricity® Enterprise clinical information solution. Through this integrated solution, Marion General looks to enhance their health information management processes, boost productivity and ultimately, provide outstanding patient care.

For nearly 85 years, Marion General's 250-bed, comprehensive regional healthcare facility has been serving its patients within a 7-county area in its North Central Ohio community. Marion General is a part of OhioHealth, a nationally recognized, not-for-profit, charitable, healthcare organization consisting of 17 hospitals, 20 health and surgery centers, home-health providers, medical equipment and health service suppliers throughout a 46-county area.. Streamline Health will help Marion General gain efficiencies with the implementation of a permanent, document-based repository of health information and workflow solutions to improve their business processes. These solutions will offer the hospital seamless access to critical patient health information, expediting clinical decisions based on comprehensive electronic health records.

"Our physicians, in particular, will benefit greatly from the Streamline Health solutions available within Centricity since it provides remote access to data and documents via a secure Internet site, which in turn, greatly improves the speed and ease of connecting from a physician's office or home," commented Jerry Feyh, vice president of finance at Marion General Hospital.

Marion General will utilize Streamline Health's document management solutions to provide convenient electronic access, including secure web-based access, to all forms of patient information from any location. Marion General plans to deploy the following Streamline Health's HIM Suite solutions:

- **accessANYware™ - Health Information Management (HIM):** Provides enterprise access to a patient's medical records to better coordinate patient care.
- **Completion Workflow:** Expedites the completion of the medical record, including online review of chart documents and electronic signature by physicians.
- **Coding Workflow:** Improves coding turnaround time by prioritizing and pushing work tasks to staff coders on campus or in remote locations, including home-based employees.

-MORE-

- **Release of Information Workflow™:** Facilitates efficient compliance with requests for patient information from third party requestors.
- **Document Capture Solutions:** Delivers high speed production scanning and indexing as well as departmental document capture and management.

“The seamless integrated workflow between Streamline Health and GE Healthcare solutions will offer Marion General Hospital a flexible, automated process that will increase productivity and reduce costs,” commented Brian Patsy, President and CEO of Streamline Health. “We are pleased to work with Marion General and help them achieve improvements in operational efficiencies to enhance patient care.”

About GE Healthcare

GE Healthcare provides transformational medical technologies and services that are shaping a new age of patient care. Our expertise in medical imaging and information technologies, medical diagnostics, patient monitoring systems, performance improvement, drug discovery, and biopharmaceutical manufacturing technologies is helping clinicians around the world re-imagine new ways to predict, diagnose, inform, treat and monitor disease, so patients can live their lives to the fullest.

GE Healthcare's broad range of products and services enable healthcare providers to better diagnose and treat cancer, heart disease, neurological diseases and other conditions earlier. Our vision for the future is to enable a new "early health" model of care focused on earlier diagnosis, pre-symptomatic disease detection and disease prevention. Headquartered in the United Kingdom, GE Healthcare is a \$17 billion unit of General Electric Company (NYSE: GE). Worldwide, GE Healthcare employs more than 46,000 people committed to serving healthcare professionals and their patients in more than 100 countries. For more information about GE Healthcare, visit our website at www.gehealthcare.com.

About Streamline Health Solutions, Inc.

Streamline Health is a leading supplier of workflow and document management tools, applications and services that enable strategic business partners and healthcare organizations to improve operational efficiencies through business process optimization. The Company provides integrated technology solutions for automating document-intensive environments, including document workflow, document management, e-forms, portal connectivity, optical character recognition (OCR), and interoperability.

Streamline Health's solutions create a permanent document-based repository of historical health information that is complementary and can be seamlessly integrated with existing disparate clinical, financial and administrative information systems, providing convenient electronic access to all forms of patient information from any location, including secure web-based access.
